presents

# THE LIMITS OF ATTENTION AND THE ENGINEERING OF YOUR WORLDVIEW

Saturday, May 31<sup>st</sup>, 2025

## THE TOPIC:

In our discussion, we will explore the limitations of attention and the principles of worldview subversion. We will begin with a description of the basic attentional processes in visual perception and then apply these concepts to better understand information and attention control by social media platforms, entertainment sources, news outlets, mainstream education, and government. Throughout the conversation, we will reflect on **what scripture teaches about how we should engage with the information around us and how we can prevent the unholy subversion of our Biblical worldview.**

## WHEN AND WHERE:

- ↳ Saturday – May 31<sup>st</sup>, 2025
- ↳ **RISEN CHRIST LUTHERAN CHURCH**, 4090 Dixie Rd, Mississauga
- ↳ 9:00AM- 5:00PM
